

B2B Connector

3.3V Voltage Regulator (Vreg)

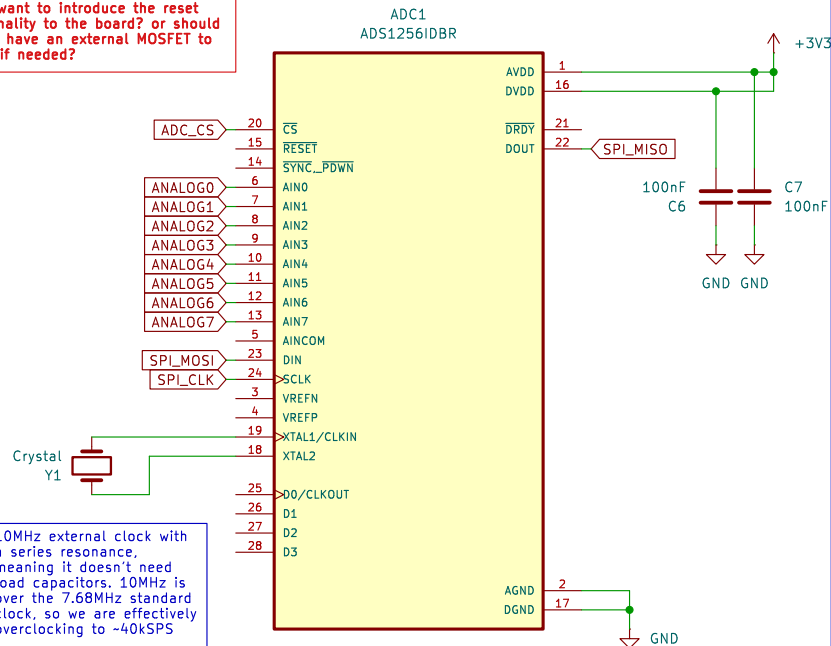

5V Voltage Regulator

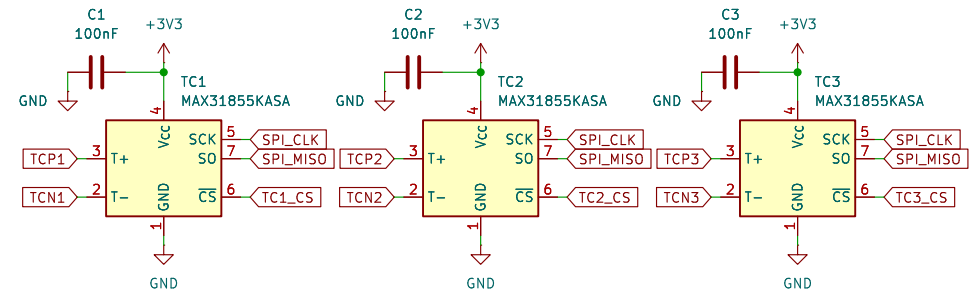

Analog-Digital Converter (ADC)

do we want to introduce the reset functionality to the board? or should we just have an external MOSFET to reboot if needed?

Thermocouple (TC) ICs

The same thermocouple ICs we used last year. They're not too expensive, and they have the functionality we need. Designed for K-type thermocouples!
